

Meet the jammer family! *You can't beat em, black or blue!*

For use on most two post surface mount automotive lifts and designed specifically with newer Challenger and Rotary lift models in mind.

doorjammerPRO™ & doorjammerPRO-V™

Customer Satisfaction: Show your customers how much you care about their vehicles. Many top Mercedes, BMW and Porsche dealers use doorjammerPRO's to protect customer vehicles, why shouldn't you?

Eliminate Costly Damage: A lift equipped with doorjammerPRO or PRO-V protection will eliminate door dings, dents and scratches because the main area where doors meet the lift is protected.

Protects You: Don't be held accountable for dents and dings.

Faster: Makes your service technicians more efficient because it is easier to get in and out of vehicles.

doorjammerPRO™ This is the granddaddy of the family and preferred in top end shops across the country. This pad is made of specially molded, impact resistant, polyurethane foam. This pad can also be custom screen printed with your shop logo or favorite slogan. The doorjammerPRO is the hands down favorite in custom rod and speciality shops and top new car dealerships.

doorjammerPRO-V™ The PRO-V is the value series of the family and provides optimum protection while meeting the budgetary needs of large high volume shops. PRO-V's are made using energy absorbing polyethylene foam. You will find doorjammerPRO-V's in shops with 10, 15, 20 or more automotive lifts. When you want protection, piece of mind, improved efficiency and absolute affordability make it the PRO-V series.

Design Patent Number: D491,332

Part Number	Size	Description
BH-7077-00B	5" wide x 18" tall	Blue PRO-V <i>Jr</i>
BH-7077-02-1	18" wide x 24" tall	Black PRO <i>Granddaddy</i>
BH-7077-02-1VB	18" wide x 24" tall	Blue PRO-V <i>Papa</i>
BH-7077-02-1V2B	18" wide x 12" tall	Blue PRO-V <i>Mama</i>
BH-7077-02-2	18" wide x 24" tall	Black PRO (pair) <i>Granddaddy</i>
BH-7077-02-2VB	18" wide x 24" tall	Blue PRO-V (pair) <i>Papa</i>
BH-7077-02-2V2B	18" wide x 12" tall	Blue PRO-V (pair) <i>Mama</i>
