Simply install the PowerStation™ on your surface-mount lift or nearby wall, bring in your air and electric service and watch the results. You will see improved performance and a more organized shop. Gone will be the trip hazards associated with cords and hoses stretched for great distances across your floor.

### Features:

- Your choice of four attractive powder coat finishes. Choose your own personalized combination. If your lift is blue, choose blue **or** consider yellow or red for that stand-out look.
- Easy-to-install. Adapts to most surface mount lifts or any nearby wall.
- 20 amp (20-5R) outlets with GFCI protection are standard.
- Electrical outlets are positioned above the filter to prevent moisture problems. (common with others)
- Air System provides both filtered non-lubricated and lubricated air—one for tire inflation and blow guns, the other for your pneumatic tools.

### Benefits:

- Air lines and electrical cords are within easy reach.
- Your surface mount lifts become more service tech friendly.
- Enhances your overall shop appearance and performance.
