SAFETY LEGS

SVI is your Answer!

Are your customers in compliance with O.S.H.A.!

Standard Safety Legs are always in stock at SVI. Customs can generally be produced for shipment within a day or two after receipt of your order.

In addition to the 5/8" bolt style, we now offer BH-EL-66's or BH-TR-66's with either a 3/4" or 1" bolt, just specify when ordering.

Did you know SVI produces a special high strength, small diameter safety leg for use when guide tubes get too scaled up for a standard diameter leg. And, extra flippers can be added to safety legs when protection is needed at other than full stroke, say at 3 feet.

New SVI Price List Out

Effective
May 11, 1998

New SVI Price List is out and extra copies are available. If you need an extra just have us include one next time you are placing an order.

Chocked full of new product additions, this price list contains over 10,000 items. Every professional that is servicing automotive repair facilities should carry one.

Pricing for MILTON and WATTS brand air equipment is included. You will also find a complete listing of repair parts for NUSSBAUM lifts and GRACO lubrication equipment. We want to be your supplier - call us today for help or to place an order!
