BH-7085-01 1/2" Drive

BH-7085-02 3/4" Drive

Note: ratchet not included

The **Lift King** brand **SuperSocket** is ideal for everyone who installs auto lifts using standard wedge anchor fasteners. Since air or electric powered impact wrenches are an absolute no-no around wedge anchors, this product is the right tool for the job. Who wants to crawl around on their knees to hand tighten 10 or more anchors per lift installation?

With the **SuperSocket**, this is over! Now you can properly tighten anchors while reducing stress on your knees, back, joints and shoulders.

This tool is also ideal for use as a pry bar or roller for moving lifts around. Every installer or installer team should carry at least one on the truck. Do the job right and reduce the energy you expend.

Don't delay, order your *SuperSocket* today.
