

Everyday!

We will meet anyone's advertised price or competitive special.

Quality, Knowledge & Experience

SVI backs Lift Repair Pros with not only quality but a full staff of knowledgeable people, an ever growing product line and the stability you expect from a supplier.

We will even, at the drop of a hat, produce obsolete parts for you per your sample and make them available again, forever. All while providing you with the pricing you need to optimize your profits.

We are striving to be your complete source. We all work very hard to earn your business **everyday.**

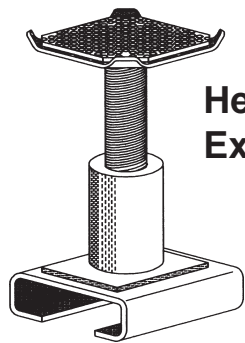

One phone call does it all.

SVI Supports Distributors

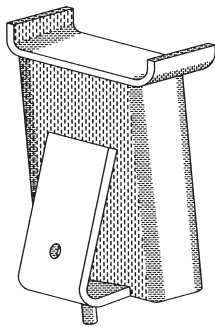

SVI supplies only to Distributors and does not sell to lift owners (end-users).

Unfortunately, there are other suppliers in the lift industry that sell directly to lift owners, cutting out the distributor. SVI believes this undermines Distributors, the back bone of the industry.

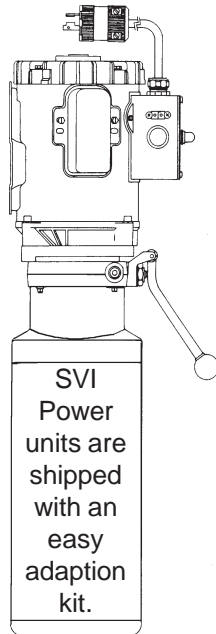

This is wrong. For Distributor Support - **SVI is your answer!**

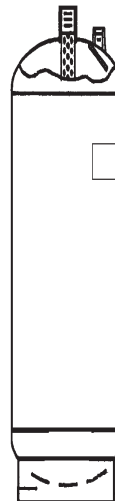

Height Extensions

Power Units

Hoist Packing Kits

Tanks

Safety Legs

Your orders are priority.
Need it tomorrow, we'll ship it today!
