

SVI anchors

ULTRAWEDGE™ Wedge Anchor is full threaded and tops in tension strength.

Head Stamped - Helps determine length of anchor after installation.

Bull Nose Head - Helps to ensure threads won't be damaged during installation.

Longer Thread Length - Gives greater versatility in anchor embedment depth with one anchor.

Universal Collar - Widely accepted collar design greatly reduces the chance of spinning during installation.

Coined Collar - Leading edge specifically designed for quick installation.

Outperforms Hilti anchors in tension test in 4000 psi concrete. Hilti scores only 10,000 and the ULTRAWEDGE™ wins hand down at 13,480 lbs.

No comparison!

[Order 80 pcs or more at a time and SVI will pay your standard UPS ground shipping charges.](#)
