REAL SOLUTIONS FOR LIFT PROS!

In May of 1996, SVI introduced replacement In-Ground Sections and Kits for most fore and aft lifts.

Available through SVI distributors only, many of these assemblies have found their way to some pretty impressive addresses. Many of which include some of the largest transit authority bus repair facilities in the country.

Low Cost Solution

Call to get your copy of our Replacement Cylinder Assembly Kits & Sections for Front & Rear Lifts booklet. This Lift Repair Parts catalog contains all the necessary information for ordering Replacement Sections & Kits and is a must have for all Lift Repair Professionals.

Order LRS0012

Sizes 7-1/2" - 10-5/8" - 12-5/8" and 10-5/8"
Dual Assemblies.

Featuring **Weaver** Style Assemblies

SVI "DIRECT FIT" BRAND PRODUCTS

Competitive Advantage

Just because the front or rear cylinder is bad the whole lift is not. SVI Distributors can always quote an economical and sound solution, thus keeping the competition out.

If the front cylinder assembly has gone bad simply order a front cylinder assembly kit from SVI. In a matter of hours, the lift can be back up and running for many more years to come.

Competitively priced, Sections and Kits are typically in stock at SVI's Elburn facility and ship within a day or two. Each kit is carefully shipped

with the cylinder assembled and all the pieces needed to do the job. In-Ground lifts are some of the most versatile, safest pieces of lifting equipment available. Keep them going and keep out the above grounds.

It doesn't matter whether you are working on a Rotary, Weaver, Joyce, Globe, Gilbarco or Western lift - **SVI is your Answer!**
