

Hydraulic seal kits and cylinders for Rotary vehicle lifting equipment

For over 33 years SVI has been a key supplier of hydraulic seals and seal kits to those who build new and those who rebuild used cylinders. SVI has a great deal of sealing expertise and an engineering department that excels at application design and material specification and identification. These facts coupled with our best pricing programs are the reasons that OEM's and distributors alike have made us their number one trusted source for seals.

SVI is your answer. . .

A reference guide for
Rotary lifts

All names, numbers, symbols and descriptions are used for reference purposes only. It is not implied that any part listed is the product of these manufacturers; however, some parts may be the actual product of these manufacturers.

SVI got its start as a seal company that specializes in the supply and design of seals for OEM's and distribution. Our seal knowledge is vast and because of this we excel in a broad variety of sealing applications. These applications include:

Motor Sports

Construction Equipment

Lubrication Equipment

Petroleum Equipment

Drivetrain Components

Tire Changer Equipment

Automotive Equipment

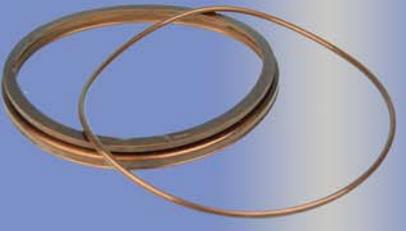

Fluid Delivery Systems

Heavy Duty Vehicle Lifts and more. . .

OEM proven and demanded products!

SVI is your answer!

Yes, call

SVI also stocks older version in-ground seals. If you have an older lift and don't see what you need just call.

Wipers and Bearings for the top side of 2 Post In-Ground Cassette Lifts

The wipers are made using a very specialized UHMW material and the energizer spring is constructed out of 301 stainless steel. The white bearings are also made from a specially blended UHMW material while the tan colored bearings are produced using a blend of teflon and bronze.
