Positive Stabilization
Mechanical heavy-duty tracks and pinions equalize plunger movement.

Automatic Locking
A spring-loaded latch automatically engages into notches on the backside of the track bar as the lift is raised. To lower, release lock and upon full descent, the locks automatically reset and remain ready for the next job.

“BBLM” Technology
Brute Strong
Built Simple
Low Problem
Made-To Last

Room to Work
Globe “28” Models give you the flexibility and all the room you need for under-the-car repair or service.
In your business, accessibility means faster repairs, more cars in and out everyday. Get Globe working for you!

Optional Features
Height Extensions
Nesting-style height extensions slip easily onto the Frame Kontakt 360° swivel adapter and into the swing arm nesting socket so reaching the proper pickup points is a breeze.

Suggested Written Specifications
FUNCTION: To raise domestic and imported vehicles by their frames or bodies permitting maximum undercarriage service accessibility with wheels in relaxed position. Uses twin cylinders with 68” stroke and 12,000 lb. capacity at 150 psi shop air pressure.

POWER CYLINDER: To use minimum 8-1/2” plunger diameter cylinder of full-hydraulic design featuring wiper seal, pre-energized packing seal, removable bearings and plungers. Rack and pinion equalizer system will keep movement even and an automatic lock latch is provided for each cylinder.

SUPERSTRUCTURE: The lift provides four (4) telescopic swing arms on low profile superstructure and an adapter pad height of 4-3/4” above the floor. The adapter assembly is multi-position and has a rated capacity of 3,000 lbs.

CONTROLS: An A.S.M.E. fluid storage tank with one (1) 1/2” air control (locking), an air valve muffler and one (1) 1-1/4” oil control valve are included.

Globe Versatility
This twin-post lift with its clear center and adjustable sleeve and adapters provides mechanics more accessibility to the vehicle, allowing faster inspection, repair and lubrication. Plus, the unobstructed floor area allows easy positioning of portable tool carts, work benches and transmission dollies.

For proper operation and to qualify for warranty service, all equipment must be installed according to detailed installation instructions, which accompany each unit.
