## Retractor Hose Clamps

**SVI Curb Pump Hose Clamps** are made of a high quality black nylon material that resists the elements. Each Clamp is free rotating, preventing the hose and retractor cable from binding or twisting. All Clamp Kits come individually packaged with all the necessary hardware along with an installation diagram. For your Hose Clamp requirements, SVI can meet all your needs. Retractor cable assemblies are sold separately. Blanket orders and quantity discounts are available upon request. **SVI is your answer.**

## Retractor Clamps for Electric Vehicle (EV) Charging Stations

*Ideal for EV Charger Manufacturers, Distributors, and Installers*

Use SVI's EV Charging Cable Clamps for a well-kept professional experience.

## Electric Vehicle (EV) Charger Cable Clamps

**SVI Cable Clamps** are made of a high-quality black nylon material that resists the elements. Each EV Charger Cord Clamp is free rotating, preventing the cable or hose, and retractor cable from binding or twisting. All Clamp Kits come individually packaged with all the necessary hardware along with an installation diagram.

Change is happening fast and Electric Vehicle (EV) charging stations are starting to show up all over the place—at grocery stores, hospitals, government centers, pharmacies, parking garages, parks, hotels, and more.

SVI has kept pace with the changing needs. Long electrical cords need to be retracted up and away from the ground no differently than fuel hoses to prevent damage, and for safety.

SVI now supplies EV cord clamps. EV charger cables range in diameter size so a number of size options are becoming available. These EV clamps are supplied by SVI to some charging station manufacturers for production. For your Cable Clamp requirements, SVI can meet all your needs. **SVI is your answer.**

**Blanket orders and quantity discounts are available upon request.**

**DID YOU KNOW?** SVI offers Service Station Pump and Tank Products including Pump Island Accessories, Meter Gaskets & Kits, Time Delay Relay, Retractor Cable Assemblies, Retractor Clamps for Hose, Hose Reels, Hose Stops / Ball Stops, Lead and Wire Meter Seals, and much more!

*They need a retractor system.  
This is not a good situation.*

## Time Delay Relay (TDR)

### Leak Detector Time Delay Relay - Adjustable • BP-4170-FSD

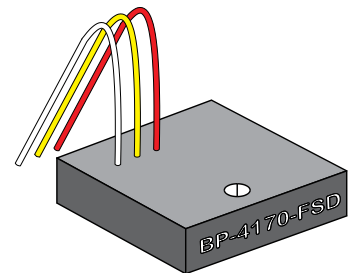

**SVI's Leak Detector Time Delay Relay (TDR) BP-4170-FSD** helps eliminate thermal line contraction in service station pumps located where the temperatures dip into the chilly range. Leak detectors, which delay the product flow for two seconds, have some problems. When the air temperature is colder than the temperature inside the tank diaphragm style leak detectors do not stay primed. Pressure is not maintained in the lines from the submersible pump. Consequently, a two second delay is not long enough for the fuel to return and the leak detector misinterprets low pressure as a leak and slows the product flow. The BP-4170-FSD, which delays the product flow, **solves most of these problems**. *SVI is your answer!*

***The BP-4170-FSD is the best time delay relay available and at a great, low price.***

- At only 1-1/4" x 1-1/4" x 0.6" high it will fit in the tightest junction boxes.
- One feature which makes the BP-4170-FSD stand out is its **field selectability**. It contains a timing switch with 10 positions and indicator. The BP-4170-FSD is adjustable from a 1/2 second delay to 9-1/2 second delay. Select 0 for 1/2 second delay. Each subsequent position increases in 1 second increments. (Select 1 for 1-1/2 second delay, 2 for 2-1/2 second delay, etc.).
- The switch is easily visible and simple to adjust. No guess work is required.
- There is also no chance of losing the position while turning a pod.

**ADJUSTABLE /  
FIELD SELECTABILITY**

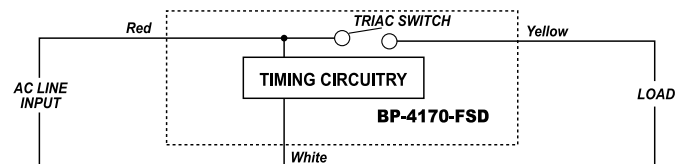

#### SPECIFICATIONS

<b>POWER INPUT</b>	130 VAC maximum @ 60 Hz, the internal circuitry uses 1.5 watts.
<b>OUTPUT CURRENT</b>	The module can deliver a maximum of 4 Amps to a load.
<b>TIMING RANGE</b>	From .5 seconds (switch at 0) to 9.5 seconds (switch at 9).
<b>TIMING ACCURACY</b>	Plus or minus 10 percent from actual switch setting.
<b>CASE SIZE</b>	1.25" x 1.25" x 0.6" Lead length approximately 8"
<b>MATERIAL</b>	<b>Potting Shell:</b> Glass-Filled Diallyl Phthalate <b>Potting Compound:</b> High density Polyurethane (meets U.L. 94 V-O) <b>Wire Insulation:</b> PVC

#### TECHNICAL DESCRIPTION

The **BP-4170-FSD** module in its simplest terms is a Solid State Relay with a time delay control circuit.

- The **RED** lead supplies power to the timer circuit and to the output switch (a triac).
- The **YELLOW** lead connects to the output of the triac switch.
- The **WHITE** lead is the power return connection for the delay circuit.
- The time delay circuit is controlled by a switched capacitor R-C timer. The switch allows setting the time delay in seconds.

#### ALSO AVAILABLE:

#### **BP-4170-FSN Leak Detector Time Delay Relay - Adjustable**

**FSN Style is designed for Older Model Tokheim Pumps** with electric reset and the AC line voltage from the pump handle. It is designed for those situations that require the load (solenoid valve) to be switched to the neutral side of the line.

## TAMPER-EVIDENT SECURITY SEALS

### DISPENSER REPAIR PARTS

# Wire Meter Seals

Gasoline / Diesel Meter Calibration Seals

Aluminum or Lead Wire Seals

#### MANY APPLICATIONS:

METERS / UTILITIES  
AUTOMOTIVE  
AGRICULTURAL / FOOD  
AIRCRAFT  
CHEMICAL INDUSTRIES  
LAW ENFORCEMENT / MILITARY  
STORAGE / INVENTORY  
VALVE TAGS  
PUMPS  
TRANSFER HOPPERS  
SPRINKLER SYSTEMS  
SCALES  
AND MORE

### Lead and Wire Seals

Lead Wire Meter Security Seals are made in a combination of 1/2" diameter double-slotted seal with a 3-ply galvanized steel wire available in 12", 18", 24" and 36" lengths. Used for water and gas meters, connections, boxes, controls, valves, etc. Lead and Wire Meter Seals are effective only when properly sealed. Use of BP-1469 crimping tool assures correct sealing. Turnaround on lead and wire meter seals, crimpers, and recessed imprinted dies is very quick, as in same to next day shipping.

Lead Wire Seals are sold in Bags of 100

Bulk Lead Seals are sold in Bags of 100

Bulk Wire Available in 1000' Spools—30# AWG or 26# AWG

### Aluminum and Wire Seals

*Aluminum Seals are now available for those who cannot use the lead seals due to regulatory requirements!*

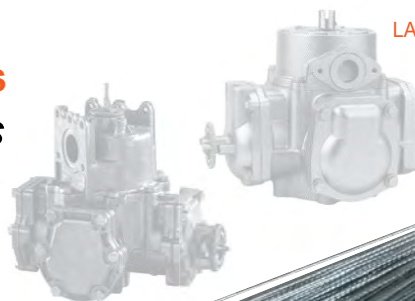

Whether you're in California or another location that doesn't allow lead seals, you now have a great alternative option. Aluminum Seals are resistant to higher temperatures than lead seals and are more resistant to chemicals than plastic seals. Aluminum Seals are available in two sizes including 5/16" (8mm) or 1/2" (12mm). The standard Aluminum and Wire Seals consist of a 12mm aluminum seal and 3-ply galvanized steel available in lengths of 10" 14", or 18". Used for water and gas meters, connections, boxes, controls, valves, etc. Lead / Aluminum and Wire Meter Seals are effective only when properly sealed. Use of BP-1469 crimping tool assures correct sealing.

**Important Note:** When using aluminum seals, use Blank Dies or must request BP-1459DS Raised Letter Imprinted Dies, sold separately. Recessed Imprinted Dies do not work for Aluminum Seals. Please note, raised letter imprinted dies have a 1-2 week turnaround. All other standard wire seals, crimpers and dies ship quickly, usually same day or next day.

Aluminum Wire Seals are sold in Bags of 250

Bulk Aluminum Seals are sold in Bags of 500

Bulk Wire Available in 1000' Spools—30# AWG or 26# AWG

### LEAD AND WIRE SEAL

Wire Lengths:  
12" • 18" • 24" • 36"

### ALUMINUM AND WIRE SEAL

Wire Lengths:  
10" • 14" • 18"

#### USE WITH BLANK OR CUSTOM IMPRINTED DIES

#### 5" Chrome-Finished Crimper / Seal Press

BP-1469 • Furnished with hard cams for long life with special leverage for easy hand grip. 2 blank or recessed imprinted dies included.

**Important Note:** With Aluminum Seals, use Blank Dies. Or, use Raised Letter Imprinted Dies, Sold Separately.

**Blank Dies:** For use with Lead or Aluminum Seals. Turnaround is Very Quick, as in Same to Next Day Shipping.

**Recessed Imprinted Dies:** For use with Lead Seals Only. Turnaround is Very Quick, as in Same to Next Day Shipping.

**\*Raised Imprinted Dies:** For use with Aluminum or Lead Seals. Please Note: There is an approximate 1-2 week turnaround for raised imprinted dies.

Same-Day to Next-Day Shipping is our goal on all of these products with the only exception being raised letter imprinted dies, which have an approximate 1-2 week turnaround.\*

 (BP-4301-01)

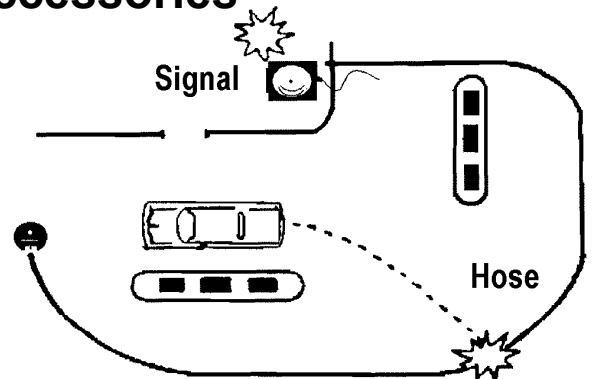

**Included with BP-4301 and BP-4320**

## Pump Island Accessories Signal Bells and Accessories

Complete enclosure of the entire drive lets station attendants know the instant a car crosses the sidewalk. Signal bell warnings are ideal for full service stations or for any facility where security demands that attendants are warned when a car approaches.

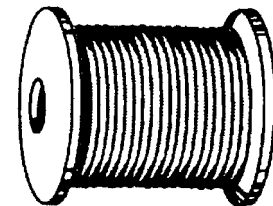

**BP-1515A**

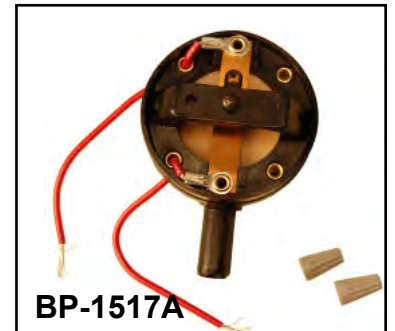

SVI offers a specially compounded Signal Bell hose which provides long life and withstands flexing, loads, temperature and ozone. Furnished in 100 ft. and 300 ft. coils.

<b>BP-1515A</b>	Electric Signal Bell - UL Approved with 3 Wire Ground Cord
<b>BP-1517</b>	Control Switch - All purpose unit for most signals. Has protector cover and mounting bracket. Works on 110 volt or 10 volt.
<b>BP-1517A</b>	Control Switch - Has no Bracket or Cover. Fits these signal bells only.
<b>BP-1517B</b>	Control Switch - Weathertite, Switch on FSBC Cover
<b>BP-1520</b>	Hose Anchor - End Weight
<b>BP-1521</b>	Hose Wye Fitting with Clamps
<b>BP-1522</b>	Hose Splicer with Clamps
<b>BP-1523</b>	Coil Plunger Assembly
<b>BP-1524-100</b>	100' Coil Driveway Signal Hose
<b>BP-1524</b>	300' Coil Driveway Signal Hose

## Rebuilt Meters and Computers

### (Exchange or No Exchange)

This is a simple way to get quality rebuilt meters at a competitive price. It is no longer necessary to send a core for exchange just to get a remanufactured meter. SVI eliminates these hassles but keeps the option open should a core want to be returned.

- \* Pre-Calibrated at the Factory**
- \* No Exchange Needed**
- \* Can Ship via UPS**
- \* 12 Month No Charge Replacement Warranty**

<u>SVI Part #</u>	<u>The Meter</u>	<u>Shipping Weight</u>
BP-4571	Bennett 4000 Meter	40 lbs.
BP-4572	Gilbarco New Style Meter PA-24	15 lbs.
BP-4573	Gilbarco Electronic PA-24T	15 lbs.
BP-4574	A.O. Smith PM-2 Meter	15 lbs.
BP-4575	A.O. Smith Electronic	15 lbs.

SVI is always working to improve your profit performance on each service call you make.

**The "V" in SVI stands for real value. . .**

DeKalb, Illinois—The SVI new product development team, in conjunction with the engineering department and distributor-driven input are pleased to expand our offering of Meter and Pump Unit Lip Seals. While most of these have been in our product offering for quite some time, we've added BP-2606 (ref N23196) for Gilbarco to better serve you. The seals pictured above (sold individually) are for use on pumps and meters such as A.O. Smith, Wayne, Gilbarco, Southwest, and Bennett. SVI's selection of repair/rebuild parts for gas pumps and meters has been growing and we welcome your business and suggestions for what kits and parts we should put on the development schedule.

Note: Distributor input is driving us and continues to increase. What pump related kits or problems do you need us to work on for you?

Contact an SVI representative with any questions, to place an order or to suggest other pump repair parts and kits you would like to see us add to our product line.

## Quad Ring Kit for Gilbarco Advantage Meter

**DIRECTFIT™**  
SVI's DIRECT FIT™ BRAND

The SVI new product development team in conjunction with the engineering department and distributor driven input continually works for you to find more cost-saving products and solutions.

The kit pictured to the left is for use on Gilbarco Advantage Meters. It is equal to the K35222 kit less the alignment tools.

We offer this kit in two versions, one for moderate climate environments and one for extremely cold climates where quad ring hardness can become an issue.

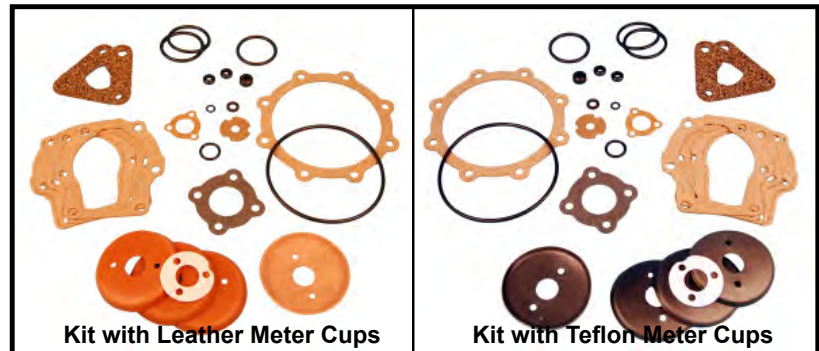

LT = Low Temperature

SVI Part No.	For	OExref	Rebuild Kit Description	Effective Cold Hardness Range
BP-2159-01	Gilbarco	K35222	Quad Ring Kit w/Gaskets (10 ea in kit)	-15° F
BP-2159-01LT	Gilbarco	K35222x	Quad Ring Kit w/Gaskets (10 ea in kit)	-40° F & C

## Updated Rebuild Kits for Old and New Style Gilbarco Advantage Meters

In 2010, the SVI new product development team, in conjunction with the engineering department and distributor driven input introduced new and more complete kits for rebuilding Gilbarco meters.

The kits pictured are for use on Gilbarco Advantage Meters. Each kit comes complete and is supplied with both the old style and new style top shaft seal and gasket. You can also choose which type of formed piston cup material you need—leather or teflon.

SVI's selection of repair/rebuild parts for gas pumps and meters has been growing and we welcome your business and suggestions for what kits and parts we should put on the development schedule.

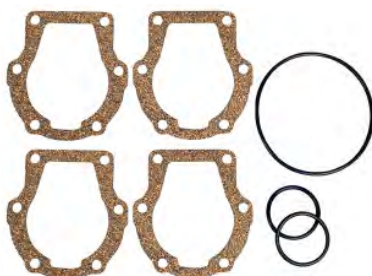

SVI Part No.	For	Rebuild Kit Description
BP-2159-10L	Gilbarco	Meter Rebuild Kit (with leather cups)
BP-2159-10T	Gilbarco	Meter Rebuild Kit (with teflon cups)

BP-2158-11S	Gilbarco	K35359	Gasket and O-Ring Kit with Square Ring

## Blade / Vane Kits for Gilbarco

*For use in Highline, Trimline and Legacy Pumps produced after 1987*

DIRECT FIT™ BRAND REPAIR PARTS AND SOLUTIONS

*SVI is a premier and well-known supplier of parts for Gilbarco Fuel Pumps and other Petroleum Equipment.*

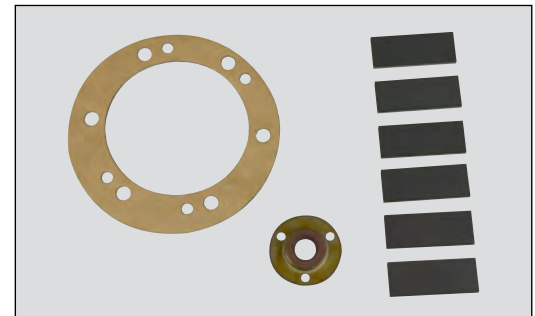

SVI's **BP-2159-76 Blade / Vane Kit with Shaft Seal and Gasket** is a Direct Fit™ replacement for Gilbarco's K35212 for use in the Gilbarco Highline, Trimline and Legacy pumps produced after 1987.

SVI has specialized in service and repair parts for petroleum equipment since 1977 through supporting equipment manufactured by many companies including that of the Gilbarco Company. Gaskets, seals and parts for petroleum pumping and metering equipment have been available from SVI for decades. In addition to complete kits, SVI also offers components individually. New products are being added every day—let SVI know what you would like to see available.

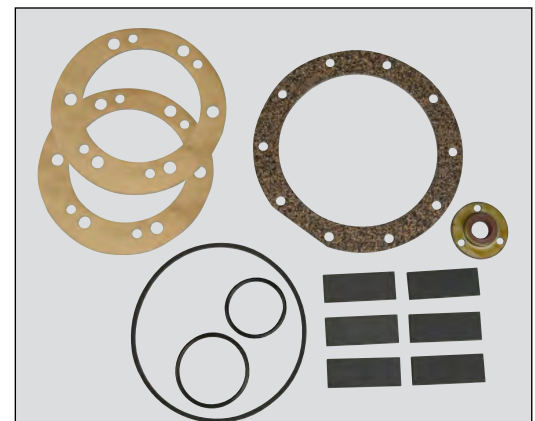

SVI continues on supporting all existing and new Gilbarco pumps and automotive lifts. In 2011, SVI purchased what was formerly known as the Gilbarco Automotive Lift Division from Gilbarco's contract lift manufacturer in Manitowoc, WI called Consumers Inc. The home for the former Gilbarco lift company is now contained under the SVI umbrella. ***For repair parts for petroleum equipment and automotive lifts, SVI is your answer!***

### PUS020 Replacement Blade / Vane Kit

These vane pumps are used in single product, single hose or two product, two hose pumps with 1/3 horsepower electric motors. Normally the pumps feature a 3/4" NPT threaded outlet but can be ordered optionally with either a 1" NPT threaded outlet or two bolt flange outlet. These Gilbarco vane pumps with a numbering series that begins with PUS020 are very popular and easy to service to keep running reliably day in and day out.

I-Meter Complete**  
*Blue Fluorosilicone (BFS)*  
**BP-2458-10SK**  
(Ref 80100)

## Underground Storage Tank Accessories

### GAUGING PASTE

#### **BP-4106G Gasoline Gauging Paste**

Gasoline Gauging Paste is light pink in color. It changes to a contrast of red upon contact with gasoline, naphtha, kerosene, gas oil, crude oil, jet fuels and various chemicals, etc. Just spread a small amount on the gauge stick where liquid level is expected and gauge as usual.

**2.25 ounces - Sold Individually or by the Case (12)**

#### **BP-4106P Water Finding Paste**

Water Finding Paste has been designed to determine the water level in gasoline, petroleum, and other tanks. When applied on the lower surface of the gauge stick, a red color will clearly show the water level in the tank. Use for accurate inventory of any liquid which floats on water. Works equally well in kerosene, oils (a few seconds longer will be required for heavy and dark oils), soap solutions, chlorides, ammonia, and most acids.

**3 ounces - Sold Individually or by the Case (12)**

#### **BP-4106M-3 Modified Water Finding Paste**

Modified Water Finding Paste is formulated for determining water levels in alcohol fuel blends. Modified Water Finding Paste turns from dark brown in color to bright red on contact with water.

Phase separated alcohol solutions with as little as 6% water will turn the paste yellow.

This product is designed for use in oxygenated fuel systems. Alcohol or de-icing agents in fuels have very little effect on the performance of the product. BP-4106M-3 meets Military Specification number MIL-W-B2779.

**2.5 ounces - Sold Individually or by the Case (12)**

**TERMS AND CONDITIONS OF THE  
SALES ORDER  
FOR SVI INTERNATIONAL, INC.**

1. **GENERAL.** The terms and conditions of sales order outlined herein shall apply to the sale by SVI INTERNATIONAL, INC. (hereinafter referred to as "Company") of the items described on the facing page (hereinafter referred to as "Merchandise") to Purchaser.
2. **DELIVERY.** Delivery shall be deemed to be complete when the Merchandise has been shipped F.O.B. Company's plants in DeKalb, Illinois, Montclair, California; and Hanover, Maryland ("Company's plants"). Shipments are subject to delays from causes or contingencies beyond the reasonable control of the Company. When otherwise not specified, shipments will be made in standard containers via carrier which, in the judgment of the Company, will result in the most practical method. Title and right of possession will pass to the Purchaser upon receipt by the carrier at the shipping point. If a customer of the Company should specify a specific carrier's method of shipment (i.e. UPS Next Day Air) and that carrier does not perform to the customer's expectations, freight credit to a customer's account will not be issued unless the Company can first obtain a credit.
3. **RISK OF LOSS.** Identification of the Merchandise under Uniform Commercial Code (hereinafter referred to as "UCC") Section 2-501 shall take place at the moment of shipment F.O.B. Company's plants. Risk of loss shall pass to the Purchaser when the Merchandise is shipped from the Company's plants.
4. **TITLE.** Title to the merchandise shall transfer to the Purchaser when the Merchandise is shipped from the Company's plants.
5. **WARRANTIES.** The Company guarantees its products to be free from defects in workmanship and raw materials for a period of one year from date of purchase. THIS WARRANTY IS EXPRESSLY IN LIEU OF ANY AND ALL WARRANTIES EXPRESS OR IMPLIED. COMPANY DOES NOT WARRANT THE MERCHANDISE IS MERCHANTABLE OR FIT FOR ANY PARTICULAR PURPOSE. Company's liability for breach of the terms of this Agreement, including any warranty, is limited to either refund of the invoice price of the Merchandise or at Company's option, replacement of the Merchandise free of charge, including transportation charges but not including the cost of labor. Purchaser has not relied on any statement or upon the conduct of Company with respect to the prospective use of the merchandise. Company shall not be liable for and Purchaser waives any and all claims for any loss or damage, directly or indirectly, arising from the use of the Merchandise and for punitive, incidental or consequential damages, including, but not limited to, damages to property, for loss of use, loss of time, loss of profit or loss of income. The Company does not authorize the sale of our products under any other warranty, expressed or implied. **Please note:** Electrical components and cylinder or shaft seals are not covered under warranty.
6. **SETOFF.** All claims for money due or to become due from the Company shall be subject to deduction by the Company for any setoff or counterclaim arising out of this or any other claims of the Company or its affiliated companies, whether such setoff or counterclaim arose before or after any assignment by Purchaser.
7. **INDEMNIFICATION.** Purchaser agrees to indemnify the Company and hold it harmless from and against all claims, liability, loss, damage or expense, including reasonable counsel fees, arising from or by reason of any modifications or alterations made by Purchaser. If a customer of the Company modifies or alters any part, in any manner whatsoever, or uses any part in departure from recommended performance specifications, said customer agrees to indemnify and hold the Company harmless from and against all liability and expenses based on damage to property or injury to or death of any person arising out of or attributable to such modified or altered part. Further, the Company will not accept any such modified or altered part for credit to a customer's account.
8. **FREIGHT POLICY.** Freight charges are prepaid and added to invoice or collect FOB shipping point. Note: All customers are responsible for all carrier shipping costs, fees, surcharges, etc. including order refusal and return fees.
9. **RETURN POLICY.** To return a part for credit or inspection, Purchaser must first contact our Main Office in Illinois, to obtain a Return Merchandise Form. Once Purchaser has obtained this form, the parts can be returned freight prepaid only. The Return form must be included with the shipment. Parts returned to the Company without the approved form will be returned freight collect to the shipper or refused. Returns must be initiated within 30 days of the invoice date. The Return Forms are valid for 30 days, from the date of issue. All Returns are subject to restocking charges. Return parts brought into our remote warehouses, will not be accepted by our personnel, without a Return Merchandise Form from the Main Office. Parts which have been used in any way or manner, including any installation or incorporation into a lift, hoist, or other equipment, shall NOT be eligible for return whether or not a Return form has been assigned. **Please note:** Electrical parts or components are not returnable for credit. This includes all switches, pushbuttons, relays, electric motors, capacitors, fuses, solenoids, power units with wiring issues or any other electrical items. Custom, built to order, special order, and non-stocked genuine parts are non-returnable.
10. **RESTOCK CHARGE.** Returns are subject to a restocking charge. Refusals are subject to the same restocking charge plus the cost of outbound and return freight charges and/or fees incurred by the Company due to shipment refusal.
11. **PRICES AND PAYMENTS.** All prices are subject to change without notice. All prices are F.O.B. shipping point. The Company standard terms are net 30 days, C.O.D. company check, C.O.D. cash, VISA, MasterCard, Discover or American Express. However, if in the judgment of the Company, the financial condition of the Purchaser at any time does not justify shipment according to standard terms of payment, the Company may require full or partial payment in advance.
12. **INTERPRETATION.** This sales order is intended by the parties as a complete and exclusive statement of the terms of their agreement. It supersedes all prior agreements, written or oral. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any terms used in this sales order. Acceptance or acquiescence in a course of performance rendered under this purchase order shall not be relevant to determine the meaning of this sales order even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity for objection. Whenever a term defined by the UCC is used in this sales order the definition contained in the UCC shall control.
13. **MODIFICATION.** This sales order can be modified or rescinded only by a writing signed by both parties.
14. **WAIVER.** No claim or right arising out of a breach of this sales order can be discharged in whole or in part by a waiver or renunciation of the claim or right unless such waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party.
15. **ASSIGNMENT.** No right or interest in this sales order shall be assigned by either party without the written consent of the other and no delegation of any obligation owed, or of the performance of any obligation by either the Company or Purchaser shall be made without the written consent of the other party. Any attempted assignment or delegation not made in conformity with this paragraph shall be wholly void and totally ineffective for all purposes.
16. **TIME TO PERFORM AND BRING ACTION.** Time is of the essence of this sales order. Any action for breach of this sales order shall be commenced within two (2) years after the cause of action has accrued. Any party who loses any litigation shall reimburse the other party for costs including reasonable attorney's fees. The exclusive jurisdiction for any legal action shall be the Circuit Court of DeKalb County, Illinois.
17. **APPLICABLE LAW.** This sales order shall be governed by the UCC of Illinois as effective and in force on the date of this sales order.
