No. 1—The First: An SVI wholly-owned subsidiary was the very first ever to invent Turf Attachments for use on automotive lifts. On September 9, 1997 SVI's very own MLM Lifts and Manufacturing (formerly known as Manitowoc Lift) developed the very first production drawings for a Turf Equipment Lifting Accessory. This innovative product line has allowed thousands of lift owners to convert their automotive lifts into a multi-functional tool. This allows for both service of their cars and pickup trucks but also ease of repair access to all the turf and small maintenance equipment also found in and around their shop.

Turf Attachments are an ideal tool to incorporate into any shop that has a two-post automotive lift or in-ground side-by-side that also has the need for servicing all types of other equipment. Turf Attachments are ideal for park districts, golf courses, outdoor power equipment dealers, municipalities, ATV dealers and just about anywhere else that requires more versatility from their lifts.

SVI has emerged and remains the leading supplier in its field for turf / utility attachments. The nimble nature of SVI engineering and strong focus on customer service allows for a wide range of flexibility in producing attachments to fit virtually all makes and models of two post surface mount lifts encountered in the field. Put the SVI team to work for you today, attachments can be made for any two post lift including those with true asymmetric or triple stage swing arms. For a whole variety of turf / utility attachment solutions—SVI is your Answer!
